BA / B.Sc. / B.Com. - Part I

Subject: English Language:

On studying this paper, the student will be able to

1. Development of computational ability.
2. Improvement of vocabulary.
3. Effective communication skills.
4. Inculcation of moral and human values.
5. Acquire knowledge of Indian culture and tradition.
6. Write effectively and coherently.

BA / B.Sc. / B.Com. - Part II

Subject: English Language:

On studying this paper, the student will be able to

1. Ability to discuss and respond to the content of the passage.
2. Knowledge of development of science and information technology.
3. Develop the writing skills through exercises in grammar and composition.

BA / B.Sc. / B.Com. - Part III

Subject: English Language:

On studying this paper, the student will be able to

1. Familiarity with values of Indian life and social system.
2. Development of India in the Modern context.
3. Development of linguistic competence and communication skills.

**M. G. RUDY ARTS, COMMERCIAL & SCIENCE PG COLLEGE, KHAJARIA
DISTT:- RAJABH (C.B.)**

Programme outcomes of U.G. Physics

Students having to do Program in various branches after the completion of the B.Sc. Degree there are various opportunities for the honor students, they can pursue higher degree in science. This work is mainly focused first are non essential for postgraduates for higher education, in some reputed Universities or colleges the students are recommended to go to IITs after the completion of the course. The students are also eligible for the job of Various government services provided by IITs, IISc, IITB, IITK, etc. are functioning place.

Program Specific outcome of U.G. Physics

(i) Graduates will acquire a broad-based knowledge and skills in the field of Physics and Mathematics.

(ii) Graduates will be prepared range of general skills to solve problems in academic and professional environment productively to communicate with society in depth and innovation.

(iii) Graduates will acquire a proactivity in diverse field such as Science and Engineering Education, Teaching, Public service, Research etc.

(iv) The graduates will have developed their ability to adapt new situation with respect to environment, technology, culture and new technologies.

(v) Graduates will be able to understand the fundamental theories concepts and application basic area of research developed the ability to explore new areas of research.

Course outcomes of U.G. Physics

Mathematical, Computational and properties of matter

Students will have understood-

- Linear motion, conservation law of linear and angular momentum.
- Conservation of energy and applications of First and Second system.
- Wave oscillation, energy, momentum, Thermal properties.
- Gravitational and surface tension and elasticity.
- Learn the basic properties of matter, how society makes a difference between different material they are suitable for different types of nuclear reactions.
- Learn the fundamentals of harmonic oscillator model including discrete and bound state basis and group the applications of term frequency basis and defining its relation.

Principal
M. G. RUDY ARTS COLLEGE
Date: 10/01/2020

Electricity, Magnetism and Electromagnetic Theory

Students will be able to

- Understand the basic concepts of electric and magnetic field.
- Understand the basic laws of magnetostatics in different form.
- Understand the alternating current theory and A.C. circuit.
- Understand the concept of induction, capacitor, inductor and capacitor in AC circuit.
- Understand the alternating magnetic source, transformer, capacitor and their resonance.

Thermodynamic Kinetic Theory and Statistical Physics

Comprehension of the concepts related to student will

- Know the basic law of thermodynamics and its applications.
- Understand the behavior of real and ideal gas.
- Understand the quantum statistics, two states, Fermi-Dirac, Bose-Einstein, Fermi-Dirac.
- Understand the efficiency of power plant and their significance in construction based on the concept of entropy and temperature of the system for the performance of the power plant.
- Show your knowledge about all types of energy sources and determine the feasibility of utilization of a certain form of such a solution.

Waves Acoustics & optics

Skills it will be able to

- Competent in the analysis and design process.
- Understand the basic of P.W.F.O.A., A.P.O.A, point, Ray, wave front of an object.
- Understand the instruments used for reflection of light.
- Understand the basic concept of refraction and dispersion of light.
- Study the general equation of wave motion in general and "M" wave in which charge and current density given.
- Understand the concept of dispersion in wave motion, reflection, refraction and diffraction.
- To know advantage of the use of ultrasonic, ultraviolet and gamma ray to solve problems related to the phenomena.

PROGRAM OUTCOME, PROGRAM SPECIFIC OUTCOME AND COURSE OUTCOME OF B.Sc. IN MATHEMATICS

PROGRAM OUTCOMES OF MATHEMATICS

- Demonstrate basic manipulative skills in algebra, geometry, trigonometry and mechanics and beginning calculus.
- Apply the underlying unifying structures of mathematics like series, Fourier series, Riemann integral, convergence & divergence of improper integral, metric space, complex analytic function, connectedness and fixed point theorems etc and relationships among them.
- Demonstrate proficiency in writing proofs and communicate mathematical ideas both orally & in writing.
- Investigate and apply mathematical problems and solution in a variety of contexts related to science, technology, business and industry, and illustrate these solutions using symbolic, numerical or graphical methods and also theoretically.
- Investigate and solve unfamiliar math's problems.

PRINCIPAL
C. S. Patel, M.A., Ph.D.
Oasis University, Sector 12
Raigarh (C.G.) India - 496002

PROGRAM SPECIFIC OUTCOME

• Think in a critical manner

• Familiarize the students with suitable tools of mathematical analysis to handle issues and problems in mathematics and related sciences.

• Acquire good knowledge and understanding to solve specific theoretical and applied problems in advanced areas of mathematics and statistics.

• Provide students sufficient knowledge and skill enabling them to undertake further studies in mathematics and its allied areas in multiple disciplines concerned with mathematics.

• Encourage the students to develop a range of generic skills helpful in employment, internship and social activities.

• This program will be also help students to enhance their employability for government jobs in banking, insurance and investment sectors, data analyst jobs in various other public private enterprises.

PRINCIPAL
C. S. Patel, M.A., Ph.D.
Oasis University, Sector 12
Raigarh (C.G.) India - 496002

B.Sc. - 1 (MATHS)

COURSE OUTCOMES

ALGEBRA AND TRIGONOMETRY

1. Students able to know about relation and function, group theory, ring theory, field theory etc.
2. Students are able to solving problem of matrix, Theory of equation.

CALCULUS

1. To solving the problems of continuous and discontinuous.
2. To solving differentiable equation of various orders.
3. Students able to knowledge to tracing of curve and find the area of surface of integral.

VECTOR ANALYSIS AND GEOMETRY

1. Learning the scalar and vector product and theorem of Gauss, Green, Stieltjes theorem and its solution.
2. Understand the general equation of cone, sphere cone, cylinder.
3. Student able to know central conchoids, paraboloids etc.

**PHYSICAL
MATHEMATICS
B.Sc. I Semester
Semester I & II Exams (2022)**

B.Sc. - 2 (MATHS)

COURSE OUTCOMES

DIFFERENTIAL EQUATIONS

1. Students able to solve Laplace transformation and inverse Laplace transformation. Heaviside's method and various type of series solution of differential equation.
2. Students are able to know the calculus of variations and solve them first and higher order of differential equation.

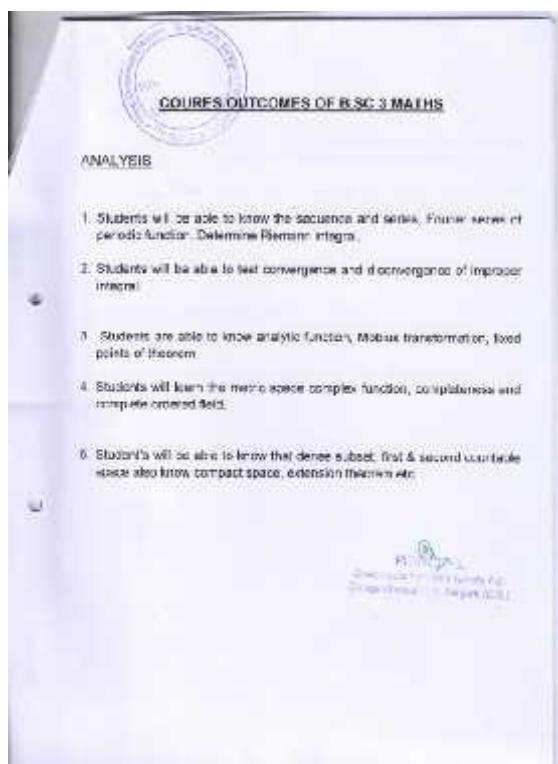

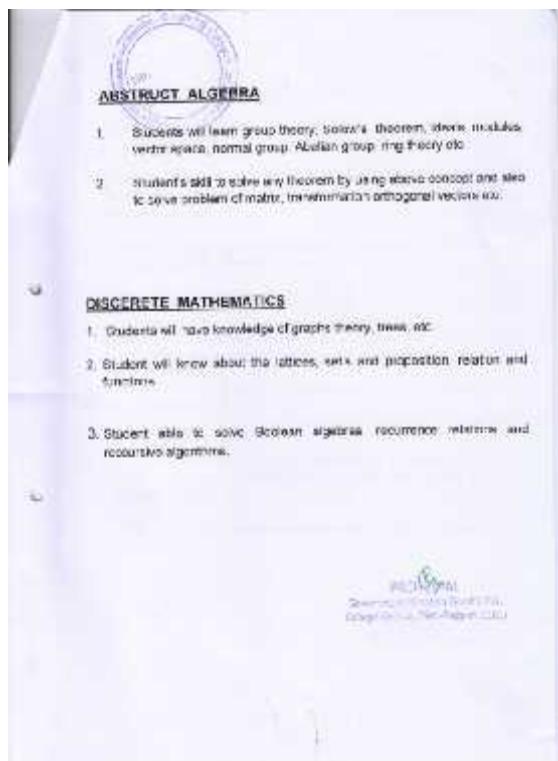

ADVANCE CALCULUS

1. Learns to complete the sequence and series of number and solve them.
2. Understand the concept of Envelope, P.D continuity of one variable and two variable.
3. To solve problem of continuity, differentiability Beta and Gamma function and solve them.

MECHANICS

1. Solve the problem of analytic conditions of equilibrium of coplanar force, virtual work, catenary, force in three dimensional, Harmonic motion and elastic etc.
2. Understand of velocity, acceleration and solving their problems.

**PHYSICAL
MATHEMATICS
B.Sc. II Semester
Semester I & II Exams (2022)**

Course outcome & Programme outcome – Commerce

Gavt. Mahatma Gandhi P. G. College Khurja
B.Com & M. Com 2016-17 to 2020-21

Program Outcome

The program could provide Institution, Banking, Services, Insurance, Cooperatives, Housing companies, Transport Agencies, Manufacturing etc., will fulfill professionals to meet the requirements.

After completing graduation, students can get skills regarding various aspects like Marketing Manager, Selling Manager, use all Administration abilities of the Company.

Capacity of the students to take decisions at personal & professional level will increase after completion of this course.

Students can independently start their own Business.

Students can gain thorough knowledge of Finance and commerce.

The knowledge of different specializations i.e. Accounting, costing, banking and finance with the practical exposure helps the students to start their organization.

Program Specific Outcome

The students can get the knowledge, skills and attitudes during the end of the B.Com degree course.

By practice of the practical they can turn into a Manager, Accountant, Management, Assistant, cost Assistant, Bank Manager, Audit, Company Secretary, Finance, Professor, Stock, Agent, Government employees and so on.

Students will give themselves in different professional exams like CA, C.S, CMA, MPSC, IBPS, As well as other courses.

The students will acquire the knowledge, skill in different areas of communication, decision making, innovations and problem solving in day to day business activities.

Students will gain thorough systematic and subject skills within various disciplines of Finance, marketing and taxation, accounting, management, communication, computer.

Students can also get the practical skills to work as accountant, audit assistant, tax consultant and computer operator. As well as other financial supporting services.

Students will learn various Advanced accounting, cost accounting, both quantitative and qualitative knowledge in their future careers in business.

Students will be able to do their higher education and can make research in the field of Business and Management.

Signature of Head of Department / Principal

Date: 10/07/2017

Course Outcomes

— B. Com Part I

Financial Accounting:
To enable the students to learn principles and concepts of Accounting.
Students are enabled with the knowledge in the practical applications of accounting.
To enable the students to learn the basic concepts of Partnership Accounting and related methods of accounting.
The student will gain thorough knowledge on the accounting practice providing its pertinent firms and other allied aspects.
To find out the technical expertise in maintaining the books of accounts.
To encourage the students about maintaining the books of accounts for further reference.

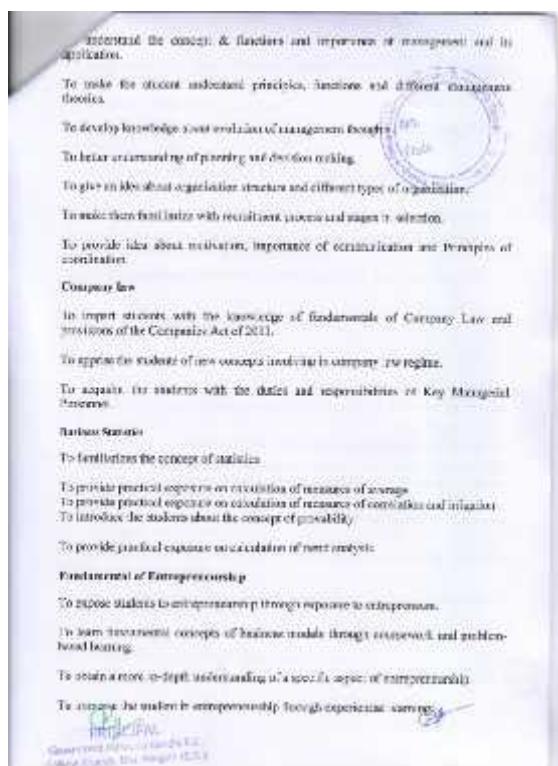

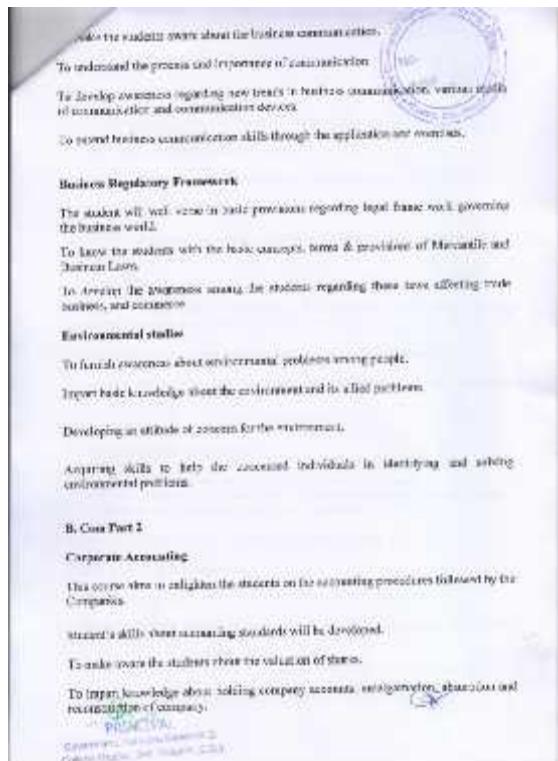

Business Mathematics:
To use and understand mathematical facility in business as well as the concept of EMG.
To understand the different concept of population and sample and to make students familiar with calculation of various type of averages and variation.
To learn the application of mathematics in business.
To implement the students in value LPP to maximize the profit and to minimize the cost.

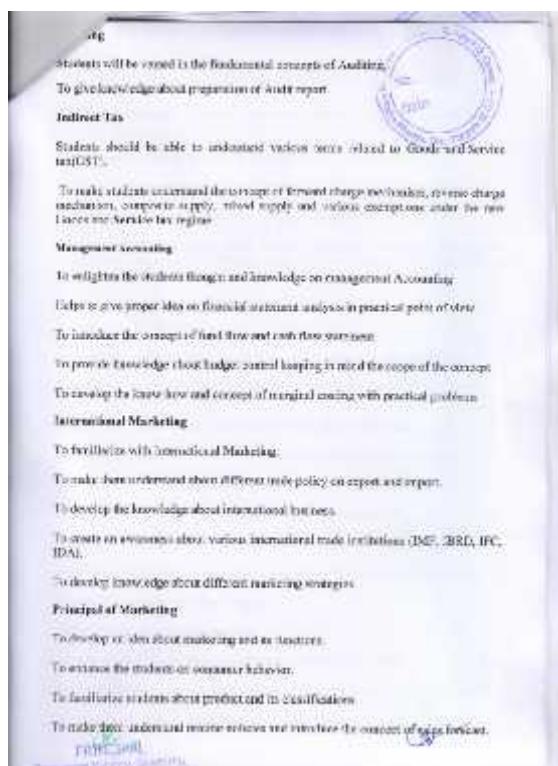

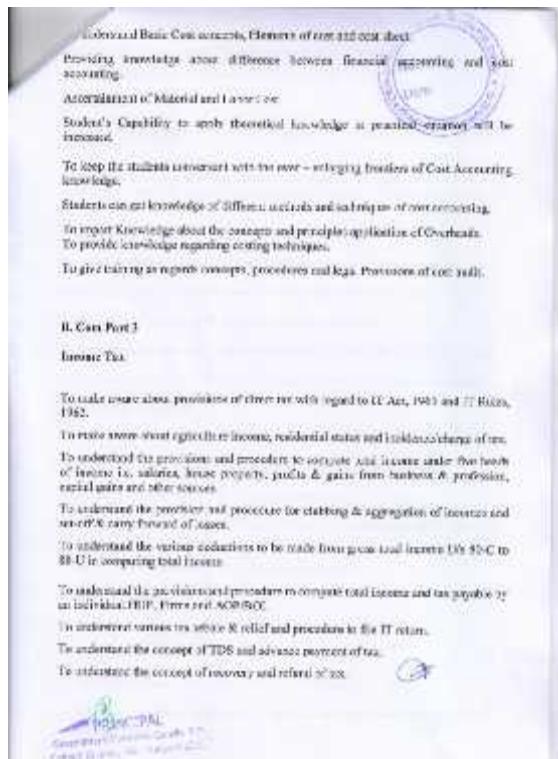

Business Environment:
To make the students aware about the business and Business Environment.

Business Economics:
To provide students knowledge of Micro Economic concepts and Economic analysis approach to the subject matter.
To arouse the students interest by showing the relevance and use of various economic theories.
To apply economic reasoning to solve business problems.

Signature of Head of Department / Principal

Date: 10/07/2017

A. Com. 1st & 2nd Sem

Managerial Economics & Business Statistics

To understand the basic elements of managerial economics aspects, nature and decision making

To understand the law of demand, supply, forecasting, consumer analysis.

To understand theories of profit, profit maximization and analysis of Read, E=πF(x).

To know law of diminishing returns, product function, Economics of scale.

To understand Pricing policy under Perfect Competition Monopoly, Monopolistic Competition, Oligopoly and Pricing Objectives and Methods to problems to minimize the cost and maximize the profit.

Advanced Accounting & Specialist Accounting

To provide the knowledge of various accounting concepts

To impart the knowledge about accounting methods, procedures and techniques.

To acquaint students with practical approach to account setting by using software package and by learning various accounts

Management Accounting & Accounting For Managerial Decisions

To enlighten the students thoughts and knowledge on management Accounting.

Help to give proper idea on financial statement analysis in practical point of view.

To introduce the concept of cash flow and cash flow statement.

To provide knowledge about budget control keeping in mind the scope of the concept.

To develop the know how and concept of original costing wth practical problems.

Statistical Analysis & Advance Statistics

To familiarize the concept of statistics.

To provide practical exposure on calculation of measures of average.

To provide practical exposure on calculation of measures of correlation and regression.

To introduce the students about the concept of availability.

judicial
Government of India
Central Board of Secondary Education
Delhi-110002
Regd. No. DSC/93/11

B. Com. Legal Framework & Business Law

Make the students understand about The Companies Act, 1956 type of corporate
Monuments of association, Prospectus, Share capital and membership.

Make the students understand about: Meeting and resolutions, Company management;
Management reorganization; Winding up and dissolution of companies.

Develop knowledge on the Negotiable Instruments Act, 1881.

To help the students to understand the framework and creation of shares,
Presentation of negotiable instruments.

Make the students understand about Legal Environment for Security Markets, AMFI
Act, 1992, SEBI Act 1992, Consumer Protection Act 1986, FEMA Act 1999, W.H.O.

M. Com. 3rd&4th Sem

Management Concept

To understand the concept & functions and importance of management and its application.

To make the student understand structures, functions and different management theories.

To develop knowledge about evolution of management thoughts.

To offer understanding of placing on decision making.

To give an idea about organizational structure and different types of organizations.

To make them familiar with recruitment process and stages in selection.

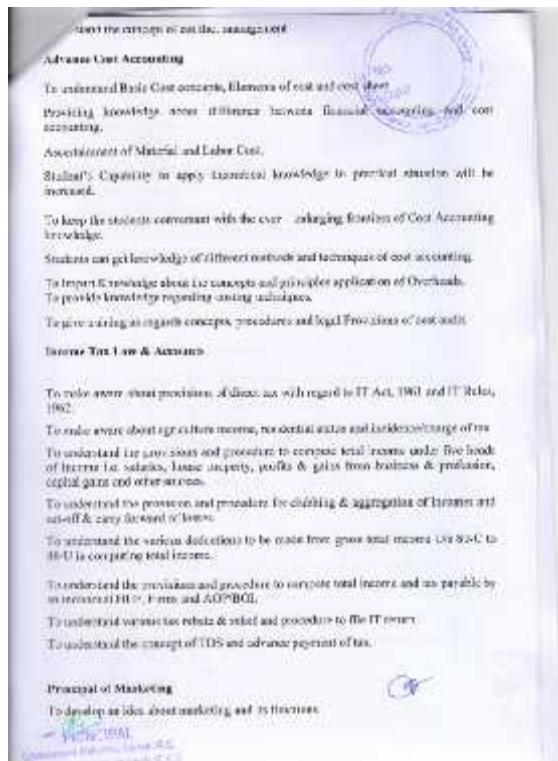

Organizational Behaviour

To equip the students with the basic idea and functioning of organizational
behaviour as a concept.

To give a light on the concept and difference between an institution.

Explain and help the students to gain more knowledge of Organisational Behavior.
