Maintenance of Campus Infrastructure 2015-16

Institution has adequate facilities for teachings teach viz class rooms, labs, computers etc. Mahatma Gandhi College campus stretches over an area of 9.64 acres at a tranquil locale in the highway towards the Raigarh Kharsia road. The entire built in area is divided into two blocks namely the Main block, the Gymnasium Block having a total campus area of 39011.69 sq. mt.. The main block is a two storied building with an additional room 2 labs of Physics and Chemistry, 3 libraries with one reading library room one for the books gathered as stock and the third room as the PG reading room which consists of departmental reference books, 14 class rooms, 1 girls common room, 7 rooms for office and other rooms. Out of the 14 class rooms in the main block, three are zoology, botany and geography labs where the classes are also conducted. The general library located with 33203 books at the centre of the main building provides everyone an easy access to the library.

Sports: We have a stadium with 400 metre running track, high jump facility, football facilities, basketball facilities and a gymnasium with body warming up facilities.

Computers: 4 computers are working in the institute.
